Continued Wayne's great tradition of point guards. She played extensive minutes while guiding Wayne to a top State ranking and state contender

Possibly the best rebounding guard in the State. Ham is a nightmare to box out. Worked on her handle, so she's improved in her guard skills as well

Danielle Bryant | Belleville | Senior | Forward

9 ppg, 7 rebs per game

Dani is one of the toughest players that I have coached. She's an excellent defender and rebounder who never takes plays off. She is a very coachable kid that works hard to improve her overall game.

Taylor has been a joy to coach over the last 4 years. Her game has come full circle over that time period. She is not only one of the best defenders in the state but also an offensive threat every night. She constantly is able to impact the game with either offense or defensive plays which has been key to propelling our team to victory. Taylor's leadership has also been key to our success because she's be able to get the most out of her teammates each night. Taylor is the toughest player that I've had the pleasure to coach and I'm proud of the legacy that she will leave behind at John Glenn being the all time leading scoring and all time leader in steals for her career

India Grissom | John Glenn | Senior | Guard

12 points per game, 2 steals per game, 3 assist per game

India has been a consistent contributor her entire 4 years as a starter. This year has been no different. India is a dangerous sharp shooting guard that has hit big shots during big moments in game after game. Were India has shown great improvement this year is in her defense. She is able go take on the toughest assignments defensively and still contribute offensively with not only her shooting but also her ability to drive to the basket. India has been able to effectively impact games with her ability to be a dual threat on offense and with her stingy defense. She has shown her ability to adjust to different situations during the game which shows that her understanding of the game has grown.
